

Wallaga Lake Heights community newsletter 14, 8 March 2021

Rain, beautiful rain!

The early 2021 rains have given us ideal conditions for planting. As a result hundreds of natives have been planted by the dedicated group of Heights Care gardeners. We plan to do more before our current grant finishes on 30 June.

The Rain has also encouraged weeds and the Ipomea, Lantana and Elephant Grass we had donged last winter is receiving further attention. This will never stop of course so any additional help with weeding and planting will be gratefully welcomed. At the moment we get together behing Libby's place, 31 Lake View Drive, at 8 am on Wednesdays.

Coastal Habitats Forum & Field Visit - Bermagui

Attached to this email is a flyer with details of this interesting session:

When: Tuesday 16 March 2021, 4.30pm – 7.30pm

Where: Bermagui Surf Club.

Cost: Free. Refreshments provided.

Bookings essential: Ali Rodway, info@fscmn.com or 0417 246 896

All are welcome so please contact info@fscmn.com or 0417 246 896 if you'd like to attend. A number of the Heights Care Exec have already booked.

Communicating with the neighbourhood

The Heights Care web site is up and running – please have a look at

<http://www.wallagalakeheightscare.com/>.

The site has all of the newsletters (including this one), information and photos about native vegetation and weeds, results of the monthly bird survey and links to other useful resources such as Landcare, The Crossing and U3A. We would also like more up to date material, so please submit any photos, news, comments or ideas to Ann-Maree at heightscare2020@gmail.com.

Best wishes, Heights Care steering group,
