

Wallaga Lake Heights community newsletter 21, 1 June 2022

The health of Wallaga Lake – seminar/workshop 8 June

SAME EVENT - NEW LOCATION AND TIME

The seminar is now less than a week away. Thanks to all who have responded – you are all welcome.

There are two changes:

- The seminar will now be held on the reserve at the bottom of Wallaga St;
- And it will run from 9 to 11 am.

The content is unchanged, ie:

- Nick Lee of Elgin Associates, an expert on water quality, will describe the work being done monitoring the lake and what we can learn from it;
- Rachel Duczynski from Bega Valley Shire will outline the current status of estuary planning.

Please let us know if you plan to attend. You might also like to let us have any questions or issue you would like addressed.

THE HEALTH OF WALLAGA LAKE

Free seminar and workshop with Nick Lee and Rachel Duczynski

Wallaga Lake Reserve, by the swings at the bottom of Wallaga St

Wednesday 8 June, 9.00 to 11.00 am
